INNOVATION

TALENTS Objectives and Goals

Develop the organization into operation with Eco Operational Excellence by increasing the operating profit to 60,000 baht per 1 ton of carbon dioxide by 2024, using the year 2018 as a base. Secondly, develop the Factor X of sustainability to be 1.5 by 2024, using the year 2016 as the base.

This will be done by correlating business efficiency issues with important global environmental issues and relating it back to the business.

This in addition to improve the quality of life of the people within the society and to grow on the basis of using natural resources efficiently and releasing less emissions throughout the business value chain.
